

# PRODUCT INFORMATION

Cat. No. SQ-AK-224010 (10 mg)

## bovine IgG

### Product Data

product name:	bovine IgG
cat.-no:	SQ-AK-224010
product size:	10.00 mg
formulation:	lyophilized
reconstitution:	please add 1.00 ml H <sub>2</sub> O dest.
purification:	1. Ammonium sulphate depletion 2. Dialysis against PBS 3. Protein G Sepharose affinity chromatography 4. Ultrafiltration, dialysis
purity:	>99%
lot. no.:	SQ17PR05200
stabilizer:	none
preservative:	sodium azide
expiry date:	1 year after reconstitution

### Remarks

none

### Considerations for Use

Please store the vial at -20°C. After reconstitution, product is stable for 1 year 4-8°C in its stock solution. Working dilutions should always be prepared freshly. For extended storage of the stock solution please add 50% glycerol and freeze the product.
